

Apple Here

Whatever you're looking for, look no further.

# It's Here.

## The Apple Here, that is.

The Apple Here home device comes in all of your favorite color combinations. Match it to your iPhone or your home decor.

## Little body, big voice.

The deceptively small speakers on the Here deliver high quality sound with deep, rich bass. Apple's A8 chip continuously analyzes the music and dynamically tunes and mixes for the clearest sound.

## Energize!

The Here has three lightning ports and comes with a USB adapter, so you'll never run out of places to plug in. It can also act as an external battery for Apple devices, holding hours, even days, of power.

## Camera, action.

The Here's dual 12 MP cameras can record straight to your phone or other device. Use voice commands to take a hands-free selfie, record a dance routine, or Facetime while cooking.

## Hey, Siri...

As always, Siri is here to answer questions, make calculations, and save the date, but now she can do even more. With compatible smart home accessories, Siri can now turn on the lights, crank up the AC, or even lock your door.
